BRAINERD IS GOING OVER THE TOP TODAY

City Responding Nobly to the Call and Banks Crowded to the Doors with People Subscribing

Every Interest, Business, Factory, Shops, Etc. Boosting Liberty Bonds in Driving Finish

The First National bank of Brainerd, the Citizens State bank and the Brainerd State bank will be open from 7:30 to 9 o'clock this evening to do Liberty bond business accepting payment on same, registering, etc. All cash payments on Liberty bonds must be made not later than Monday.

Brainerd is coming "over the top" all right and it's surprising even to the oldest citizen to see the enthusiasm that has been generated. Everybody has helped in this campaign first the fine organization of the aid-men of the various wards headed by the mayor, then the banks who have put their shoulder to the wheel as earnestly as in the first campaign, then the fraternal and labor and other organizations, the Boy Scouts, the "Four Minute Men," the stores, newspapers—everybody has helped.

At 2 P. M. today the Liberty bond total in Brainerd was \$173,050. Sales today amounted to \$48,980. All the banks were crowded to the doors doing Liberty bond business.

The Northwest Paper Co. employees have bought \$3,000 bonds and are buying more. Their company is selling them on an easy payment plan and the men's purchases will be credited to Brainerd.

The Boy Scouts reported through Scoutmaster E. W. Schmitt that \$18,500 had been sold up to this morning.

The Northern Pacific shop boys had subscribed to \$16,350 bonds up to this afternoon.

The Minnesota & International figures rolled up some more.

Yes, Brainerd and Crow Wing county certainly are doing fine and there is now little doubt that the county goes "over the top." Crosby has made its quota, the range has responded nobly. Figures, however, are not available from the various townships and it is hoped they will hold up their end. If they do, then the county is safe.

Haig Hammers Further Into German Lines

(By United Press)
London, Oct. 27—Gen. Haig hammers his way still further into German lines west of Passchendaele, further progressing and 18 machine guns were captured. Another taste of Flanders mud failed to stop the Tommies who have come to regard mud as the inevitable concomitant of their advance.

Turkish Troops Refuse Battle with British

(By United Press)
London, Oct. 27—Turkish troops on the Tigris river refused to battle with the British advanced lines in an official report. The Mesopotamian expedition declares the Turks had advanced on both sides of the river towards Semars when the British salied forth. Immediately the Turks hastily retired without fighting.

Loan Passes Record One Billion Was Subscribed Today

(By United Press)
Washington, Oct. 27—The Liberty Loan is passing the record. Probably one billion subscribed today.

Leaders are Breaking Down Under Strain

(By United Press)
Washington, Oct. 27—The leaders of the American business genius are breaking down under the terrific speeding up of the war wheels to help the allies. The collapse of Chairman Scott of the war industrial board and his consequent resignation and departure for a sanatorium is an example of what the nation's one dollar a year war makers are doing to themselves. Admiral Capps of the shipping board is near a break-down and others are nearly worn out.

Widespread Conspiracy to Destroy Livestock and Grain Discovered

(By United Press)
Chicago, Oct. 27—Intimation that a widespread conspiracy exists to destroy livestock and grain in the stock yards and elevators through the middle west was asserted in a telegram received by the Illinois food administrator Wheeler from Hoover. Mr. Hoover urged Mr. Wheeler to warn packers and grain men against incendiaryism.

Alabama Troops Negro Soldiers Open Hostility

(By United Press)
Camp Mills, Henstead, L. I., Oct. 27—The Alabama troops of negro soldiers are on the verge of open hostilities, the Alabamans say they resent the attitude of the negroes and threaten to drive the regiment from camp. The negroes say they were insulted.

Coal Price Change is Announced

(By United Press)
Washington, Oct. 27—Changed coal prices at the mines which should be reflected in prices to the public is announced by the fuel administrator. The changes are mostly increases on coal used for domestic purposes.

Evacuate Helsingfors

(By United Press)
Petrograd, Oct. 27—Preparation for the evacuation of Helsingfors, Finland, are reported under way.

MRS. J. KENDALL

New York woman to direct small army of chauffeurs in France.

Mrs. J. Kendall, a prominent New York woman in the garb she will wear in France, where she will direct a small army of chauffeurs engaged in transporting portable hangars to be used by American aviators in France. The work will be done under the supervision of the National League for Women's Service.

Opponents of Junkers Form Union

(By United Press)
Amsterdam, Oct. 27—The opponents of the Von Tirpitz Junker party have combined to form a conservative German union the dispatches declare. The new party is organized to neutralize the Fatherland faction and announces it is opposed to exaggerated war aims and proposes to renew efforts to secure peace.

Steamer Olmypyia is Lost in Storm

New Orleans, Oct. 27—The steamer Olmypyia is reported lost in a storm together with eight lives.

American Field Headquarters, France, Oct. 27—American troops are in the front line trenches and American artillery is behind them. An official announcement of the fact was made in a headquarters statement saying the men have adapted themselves to actual trench conditions in the most satisfactory manner. A red-headed artillery captain will share the fame of firing the first shell sent by an American battery in the fight for democracy. The captain gave the gunner the command, the gunner jerked the lanyard and America's first shot against the German autocracy screamed toward a German battery. It was precisely 6 a. m. The American infantry restlessly waited while the American gunners were at their part of the work. They remained in billets behind the lines until evening then swung through the streets of the village towards the trenches. The shell case of the first shot is enroute to the president.

Success of French Drive Continues

(By United Press)
Paris, Oct. 27—The success of the French drive continues. They are steadily advancing and capturing German prisoners. The German attacks on the Meuse have been repulsed.

Germans Capture 60,000 Prisoners and 350 Guns

(By United Press)
Berlin, Oct. 27—60,000 Italian prisoners have been captured by the Germans an official statement says. In their sweep forward the Teutons seized 350 guns and twenty-six air ships were driven down or destroyed, the statement declares. The attack has shaken the Italian front as far as Wippac.

Idle Neutral Shipping Well be Utilized

(By United Press)
Washington, Oct. 27—Neutral shipping lying idle in U. S. harbors will be put into use soon by some means short of actual seizure it is officially stated.

A. MITCHELL PALMER

Announces government will take property of German ally subjects

A. Mitchell Palmer, recently appointed alien property custodian, announces all holdings of subjects of Bulgaria, Turkey and Austria in the United States will be seized, together with Germans' property. These countries have vast stores of war supplies in this country which will prove of great value to us in the prosecution of the war.

Air Raid on Dunkirk 30 Civilians Killed

(By United Press)
Paris, Oct. 27—Thirty civilians were killed in a German air raid on Dunkirk it is officially announced.

German Troops Cross Italian Boundary

(By United Press)
Rome, Oct. 27—German troops have crossed the Austro-Italian boundary it is announced officially, between Mount Cany and the head of the Judric Valley. The enemy forces are attempting to reach the Italian plains beyond.

Brazil Declares War on Germany

(By United Press)
Rio de Janeiro, Oct. 27—Brazil's formal declaration of war was by unanimous vote of the senate, the

FARMERS CONFER ON PHONE LINE BUSINESS

Northwestern Telephone Exchange Co. of Brainerd Host to Rural Line Officers in City

Miniature Farm Line in Operation and Explained---Dinner Served at Iron Exchange Hotel at Noon

One of the largest and most unique meetings of its kind ever held in this city, is being held in the Gardner block today. The meeting is composed of in the neighborhood of forty farmers, representing several hundred telephone users, they being officers and directors of the various farm line companies which connect to Brainerd exchange.

The Northwestern Telephone Co. invited all the officers to dinner, which was served in very capable style by the Iron Exchange hotel management. R. R. Wise presided and Seth Phillips gave the prayer. After the dinner all congregated in the store formerly occupied by the Journal Press Co., across the street from the hotel.

In the store the company had two complete telephone farm lines built, in miniature style, showing how farm lines should be constructed.

Connecting to these farm lines, which showed a "grounded" line and also a "metallic" or two wire system, was a representation of the local switchboard. In looking at these lines one could see a model telephone exchange.

All the telephone lines radiating out of the city of Brainerd are owned and operated by cooperative farm telephone companies. These companies, we are told, are composed of the different farmers of certain communities, who organize themselves into cooperative companies and who build their own lines to the city limits of Brainerd. Here they are met by the Northwestern company, who connect each farm line to the local exchange. There are twenty-two of these companies in the surrounding territory of Brainerd. Thirty-four different lines being used by these companies. In these companies there are four hundred and seventy farmers. Each farmer is a share holder of his company and has the right to a telephone on his particular line.

There being unlimited service given by Northwestern Telephone Co., these farmers may have connections with one another as well as with all telephone users in the city. Sometimes trouble is caused by various things. Lightning in summer causes broken poles and "fusing of carbons." Cold weather causes the wires to contract, which makes them break. Batteries are "run down" by constant use. A great many things may happen to cause trouble on the line. Of course when this trouble is on the line, there is not efficient service and naturally some one gets angry.

The telephone, being one of the greatest inventions of the age, is looked upon as a sort of a Chinese puzzle. It being considered a very complicated piece of machinery. Naturally the farmer, being like all other persons looks at the telephone in the same light. When this trouble comes on the line, he does not know just what to do to clear the line.

The Northwestern Company are endeavoring to cooperate with the farmer by instructing him how to take care of this trouble. Lew D. Taylor, manager of the company aptly explained how to do this. He said, "If one of your livestock gets sick, the first thing you do, is try some of the remedies you know of, you then call a veterinarian. When the veterinarian comes you watch what he does, then the next time your cow or horse gets sick you apply the same remedies.

Do the same with the telephone. Herbert L. Tyson will show you how to take any trouble off the line. The remedy is very simple after you convince yourself you can do the same."

In explaining the constructing and maintenance of the line, Mr. Tyson, wire chief of the local exchange told in part how lines should be built. He told how all air connections should be very tight, using wherever possible a small "wire sleeve" which when twisted holds broken wires together very tight. The connections must be tight or noise will be heard on the line.

Wires should not touch trees or branches. This, he stated, "grounds" the line making it hard to ring central. At the telephone, batteries should be connected properly and should be of good test. Weak batteries should be destroyed. Above the telephone was shown a small porcelain "arrestor." In the arrestor was four pieces of "carbon" separated by two pieces of mica or ising-glass.

More trouble is found in these arrestors than any other place on a farm line.

The purpose of the arrestor is to protect the telephone in case of lightning. In the center of the arrestor is a piece of brass. This brass is connected by a wire which is connected in turn to a ground rod, driven six feet into the ground. On the edge of the arrestor could be seen a "binding post" to which a wire from the main line was connected. Between the binding post and the brass was two carbons separated by the mica. Mr. Tyson explained, if lightning struck the main line, sometimes some miles from the telephone, the lightning runs through the main wire to the arrestor, jumping across the mica from carbon to carbon there to the ground through the ground rod. In jumping across mica it melted some of the carbon, leaving a black sooty spot on the carbons. When this soot is left on the carbon it causes a "ground on the line." Sometimes it is impossible for any telephone on this line to ring central because the ring from any telephone on this particular line is going through these carbons to ground instead of to central. Mr. Tyson explained, all carbons should be cleaned very often to insure efficient service. The cleaning is very simple. Carbons are pulled out and rubbed over a rough surface then over a smooth cloth, mica placed between the carbons, then placed back in arrestor.

Another cause of trouble is in not having connection of wires to arrestor tight. After all wires are connected it should not be possible to have them turn by touching them. If the wire, where connected, moves, then connections are not tight enough.

This meeting is one which is of untold benefit to the farmers as it will, if instructions are carried out, be the means of eliminating a great deal of trouble which causes considerable annoyance.

Meetings of this kind, if held all over the country, would materially help the rural telephone service. The instruction given is of mutual benefit to the farmers as well as all telephone users.

After Mr. Tyson explained the farm telephone line mechanically, Fred Speechly, district commercial manager, (Continued on page 2)

Rulers of the Two Lost Tribes of Israel

King David and Queen Mary are the rulers of seven hundred persons in the peculiar religious sect at Benton Harbor, Mich., who believe they descended from the two lost tribes of Israel. The king and his subjects neither cut their hair nor shave their faces. But the king is more modern than the lost tribes, because he is a wonderful baseball player. He is

The Dispatch Friday evening carried about a column of want ads. There were 7 help wants, 10 for rent, 12 for sale and 3 miscellaneous wants. Telephone your want ad to the Dispatch, Northwest 74, or mail the ad or have it sent to the office. Ads are cash.

Overcoat headquarters for Brainerd at H. W. Linnemann's. For years this store has enjoyed the reputation of selling the best overcoats and never were we in better position to satisfy the demands of the trade than right now. 12213

Line welding go to Herbert Peterson at the Woodhead Motor Co. garage. 13tf

Who said overcoats? The weather man said it first with his report on frost and we said it, and now we say it again, "It's overcoat time, new overcoat time." H. W. Linnemann. 1t

The last half of the year's taxes is due at the court house and must be paid on or before October 31. The movement has been slow this fall and court house employees anticipate a tremendous rush at the finish. It would be better, however, to pay now and avoid the eleventh hour drive.

Those far seeing people who bought large wooded "liberty lots" of Nettleton last fall, not only raised their own foodstuffs but have their fuel supply as well. They are not worrying about coal or food now. Mr. Nettleton has a few large timbered lots at low prices and on easy terms. 1t

The "When Dreams Come True" company arrived in Brainerd this noon from Cleonist where they played to a crowded house last night. They have also had record houses at Ashland, Wis., and at Duluth. There are forty in the company and the girls in the choruses are exceptionally pretty. For many it was their first visit to this section of the northwest and they dreaded the appearance of the snow. Some of the girls were snowballing each other near the Iron Exchange hotel and considered it great sport.

Gustav Hindenburg, cousin of the great field marshal, bought \$25,000 Liberty bonds. Gustav is a farmer in Nebraska. There seems to be as much difference in Hindenburg's as there is in lines of clothes. The true American dependable brand is sold by H. W. Linnemann, gives good service and is excellent value. 12213

Weeghman Ready with More New Ideas

BY H. C. HAMILTON,
(United Press Staff Correspondent)

New York, Oct. 27.—If the baseball world doesn't watch its step the fellow Charley Weeghman out in Chicago is going to take their old game all to pieces and reassemble it according to his own ideas.

Weeghman, who runs the Chicago club of the National league, started out a year ago to put some new ideas into the grand old pastime, but his ideas went shuffling off for another year when he got tangled up in his training plans. This year, he declared today, he is going right through with them.

Weeghman has the idea that hitters can be made. In spite of the oft-repeated assertion, proved many times according to present methods, that real hitters are just simply able to crack 'em and the boys who don't hit 'em can't be made to, he is going to go the limit with his new idea.

Just about a year ago Weeghman conceived the idea of taking a crack hitter to California with him and sicking him onto the boys with the purpose of showing them a golf swing in their batting. A follow-through blow, such as is used in golfing, Weeghman contended, could be put to good advantage on a baseball club.

Weeghman handed out the idea in seriousness and engaged Chick Evans to make the trip to California to teach the Cubs something about hitting. However, so much fun was made of the idea and things go so bad about the time the Cubs beats it for the Pacific coast that Weeghman abandoned the idea. This year, he declares, he is going through with it, but he has in view a professional golfer as instructor for his men. Fred Mitchell, he says, is agreeable to the experiment.

Mitchell has in Chuck Wortman and several other high-class felders but poor bitters admirable material to turn over to the teacher. It may be that Weeghman will come back with a school of ball players who will begin knocking them far and wide with such gusto that the golf swing will become a common term.

And, having relieved himself of the golfing fever, Weeghman came through with another hunch. He is going to coach his runners at third base to start for home after a sacrifice fly, from a sprinter's coach. He contends that many runs a year are

FARMERS CONFER ON PHONE LINE BUSINESS
(Continued from page 1)

er from St. Cloud spoke on the history of the farm telephone lines.

Mr. Speechley stated that the development of farm lines in all parts of the country was tremendous, there being over three and one half million farm telephones in the United States on September 1 of this year.

All these farm telephones are owned and operated by farmers and are connected to the city exchanges. All companies govern themselves and are units in establishing universal service all over the country. Farm lines were first organized in 1903. At first the Bell Telephone company built and developed farm lines. After this branch of the telephone business was given a start the farmers were encouraged through co-operative companies to enter into the building of their own lines. Since 1903 thousands of miles of wire and as stated above three and a half millions telephones have been installed by farmers.

lost through a baseball player's inexperience on watching the ball as it approaches an outfielder. The start, he says, could be made at a sound from the coacher at third.

Some mighty funny suggestions, but the Cubs can stand the experimenting if any club can.

THE STORE OF QUALITY

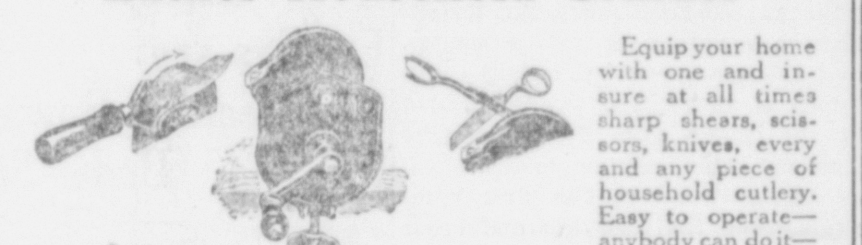

Get Them Sharpened Here

FREE during week beginning **Mon. Oct. 29**

This is sharpening week for every home. We want our customers to bring a dull pair of shears, kitchen knife or any piece of household cutlery, and we will sharpen it free of charge. No sharpening done for children or servants. We do this to demonstrate the simplicity and effectiveness of the

Luther Household Grinder

Equip your home with one and insure at all times sharp shears, scissors, knives, every and any piece of household cutlery. Easy to operate—anybody can do it—no danger. It is simplicity itself. It sharpens quickly, easily and mechanically. Can be quickly attached to a table, shelf or bench. Stands six inches high.

Visa Free With Every Grinder During Demonstration

Every home should have this visa—handy and convenient. Considerably stronger than would seem necessary for its size. The boy of the house will especially appreciate it, but it is just the thing for every home.

Hardware Supplies

Hardware for the home, barn, garage, office or factory can be supplied here at a saving in money. Hand, foot and engine power grinders for farms, carpenters, mechanics and garage use, will also be on sale during Special Sharpening Week. Come and look them over.

During this week of Special Sale we will give One No. X50 Visa with every Luther Household Grinder.

Slipp-Gruenhagen Co. South 7th St.

Influenza

"No one who has not had Influenza can realize the suffering it causes or how it defies treatment. I know of nothing that will give such prompt relief as Chamberlain's Cough Remedy, for when it is taken the pain in the chest disappears, the fever subsides and the whole body becomes more comfortable.

Then again, the after effects of Influenza are often even more distressing than the disease itself, but they can be avoided if you use

Chamberlain's Cough Remedy

Though the greatest danger from this disease is Pneumonia, I have never known a single case of Influenza to result in it when Chamberlain's Cough Remedy was freely given. The persistent cough that frequently follows Influenza can be relieved by Chamberlain's Cough Remedy, and should not be allowed to run on until it becomes troublesome."

WOMAN'S REALM

RELIGIOUS PARADE TODAY

Churches vied with one another in the religious parade to the tabernacle this afternoon. In the vanguard was the Salvation Army float, followed by groups of marchers, fifteen automobiles, the Baraca class on a big truck, the Swedish Baptist float of a boat carrying scores of children. There were men, women and children in line and cheers were frequent for Dr. Bromley and Uncle Charlie.

Sifting snow and breezy winds had no terror for the marchers and their enthusiasm warmed up the observers.

SURGICAL DRESSING SHORT COURSE

(Reproduced by the United Press from the official Red Cross Surgical Dressing War Manual.)

Bandage of Muslin—Tear muslin 4½ in. by 14 in. Tear off selvages. Fold lengthwise, making 40½ in. by 7 in. Stich one end and the side with torn edges. From middle of stitched end tear along center to within 13½ in. from unstitched end. Stich around torn edges. Turn inside out. Stich all around and three times at crotch. To make the Belt—Tear muslin 53 in. by 7 in. Place untorn end of tail on center of belt 3½ in. from its upper edge and stitch securely. Fold belt lengthwise over part of tail already stitched on belt. Stich securely all around four edges of belt. Bring ends of tail to bottom of belt; bring folded edge to top of belt; fold in thirds and roll the folded tail over on the belt; lay right end of belt over folded tail and fold over and over on itself, making a finished package 7 in. by 3 in. Tie securely with string or selvage. Place five in package. No covering; no safety pins, tie with string or piece of selvage. Stamp and tie tag: "American Red Cross Chapter Five. Bandages."

Surgical Dressing Need Now Urgent

"Nothing the Red Cross can do is so important as the making of surgical dressings," says a cable received in St. Paul yesterday from Major Grayson P. Murphy, head of the Red Cross Commission in France. "Dressings by the million must be sent over with all possible speed," he says, "and if this is not done immediately a serious calamity and national disgrace is inevitable."

The message was an answer to one sent by Samuel W. Wittenhofer, chairman of the St. Paul chapter of the Red Cross, concerning the need of these surgical dressings.

"I am sure the women of St. Paul will not ignore this plea," Mr. Wittenhofer said. "The American Red Cross is furnishing the supplies for 1,550 French hospitals alone."

HIDDEN DANGERS

Nature Gives Timely Warnings That No Brainerd Citizen Can Afford to Ignore

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Well kidneys excrete a clear, amber fluid. Disordered kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and in that case warn you of the danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills are endorsed by thousands. Here's Brainerd proof:

Charles D. Erickson, 1103 E. Oak St., Brainerd, says: "I was annoyed at night by kidney weakness. My back ached awfully and it was hard for me to get around. For several weeks, I couldn't do any work. I doctored, but got no benefit until I procured Doan's Kidney Pills at H. P. Dunn's Drug Store. They soon put me on my feet and fixed me up in good shape."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Erickson had. Foster-Milburn Co., Props., Buffalo, N. Y.

For Harry Peterson

Miss Anna Seadlund and Mrs. Harry Peterson of Crosby, entertained at a dinner party on Wednesday evening, October 24, for Harry Peterson, the occasion being his birthday.

Covers were laid for 15. Many presents were received, among them being a red, white and blue birthday cake well lit up with candles. Mr. Porter was toastmaster. Many of the guests motored up from Brainerd. The evening was spent in conversation and cards.

Bethany Birthday Club

The Birthday Club of the Swedish Bethany church will be entertained on Monday afternoon at 2:30 o'clock by Mrs. Peter Benson and Mrs. August Swanson at the home of the former, 915 First St. north. Everybody welcome.

"When Dreams Come True"

The very latest musical comedy offering, "When Dreams Come True," with book and lyrics by Philip Bartholomae and music by Silvio Hein, is announced as the attraction at the Brainerd Opera House tonight.

"When Dreams Come True" was produced originally in Cleveland, Ohio, and then taken to Chicago where it played for more than six months at the Garrick Theatre. At the conclusion of the Chicago engagement the company went down to New York and opened at the Lyric Theatre where they stayed three months. They then transferred to the 44th Street Theatre and after ten weeks at that house engagements in Boston and Philadelphia followed.

"When Dreams Come True" is a musical comedy with a blend of melodrama. The story is consistent throughout, in which it differs materially from most of our musical shows, although the musical comedy features have not been sacrificed on account of the dramatic interest, but they have been so deftly blended that the play is a marvel of dramatic construction.

The company employed in the presentation of "When Dreams Come True" is composed of players who have won distinction in musical comedy and care has been taken in the selection of the people engaged for the various roles.

The singing and dancing features call for the services of a large chorus, which has been selected with the idea that they had to sing, to dance, and always look attractive.

Drama League

The Drama League will meet Monday, Oct. 29th, at 3 o'clock P. M., with Mrs. Thomas Beare. Miss Mary Small will read a drama entitled "War."

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine sets thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by all Catarrh Medicine. Circulars free. All Druggists, etc.

F. J. CHENEY & CO., Toledo, O.

A HANDY TABLE

Farmers and Others Keep This for Reference. Price per Bushel and Price per Hundredweight

Potatoes are now being bought and sold by the hundredweight in compliance with the United States Food Commission's ruling.

For the convenience of farmer and gardener producers and the general consuming public a list has been compiled giving the price per hundredweight and the equivalent price per bushel.

For example, if potatoes are worth \$1.50 per hundred, you are selling on a basis of ninety cents a bushel.

The Dispatch is indebted to the Peterson-Biddick Co., Wadena, for the compilation of the list:

PRICE PER BUSHEL TRANSPOSED TO PRICE PER HUNDRED WEIGHT.

"Merry Wives of Windsor"

"The Merry Wives of Windsor," a social club of Northeast Brainerd, met at the home of Mrs. Robert Crust 301 Third Ave., on Thursday afternoon. A short business session was held after which a delicious lunch was served. All voted Mrs. Crust an excellent hostess.

Novel Raffle

Many novel things have been raffled in Brainerd, but the climax came with a load of wood and it was won by Mrs. Will Schilb.

DISTRICT TO EXCEED QUOTA

Ninth Reserve Bank Held Sure to Show Loan Oversubscription.

Minneapolis, Oct. 27.—Liberty Loan subscriptions in the Ninth Federal Reserve district have passed the \$100,000,000 mark.

Theodore Wold, governor of the Federal Reserve bank, announced late Friday that returns showed that \$102,000,000 of the \$105,000,000 minimum quota had been subscribed. Members of the executive committee confidently predicted that the quota set by the Treasury department would be passed.

SOCIALIST GETS THREE YEARS

Sugarman Sentenced to Leavenworth For Disloyalty.

Mankato, Minn., Oct. 27.—Abe L. Sugarman of St. Paul, state secretary of the socialist party, is guilty of utterances tending to cause treason in the federal military service and must serve three years in the United States penitentiary at Fort Leavenworth, Kan.

Army Camp Guards Doubled.

Vancouver, Wash., Oct. 27.—Following the discovery that German spies were working in the army camp here, both inside and outside guards were ordered doubled and the activities of the alleged enemy agents have been decreased. Col. Jones, post commander, admitted that authorities were conducting an investigation of alleged attempts to poison the camp's source of water. Repeated attempts to pollute the water are said to have been made. Evidence indicates that the plotting is the work of German agents.

"HE PROFITS MOST WHO SERVES BEST"

In the Morning

Just before breakfast take a dose of Nyal Liver Salt in a glass of water. This effervescent, saline laxative keeps the bowels regular in action—liven the liver and makes you feel good all day. Because it is easy to take and does not upset the stomach—Nyal Liver Salt is a ideal laxative. It's especially good for constipated men and women.

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds.
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

OTHER PEOPLES' OPINIONS

A Definition of "God,"

by Lars Ericsson.

"God," the creator of the Universe is, in a personal sense, unknown. The simple reason for this fact seems to be that God is impersonal. I use the word impersonal because we always conceive of personality as a distinct entity apart from other entities.

God is the Universal Intelligence, the Soul of the Universe.

We can form a clearer conception of God by a study of the human soul in its relation to the other parts which constitute a human being. As the soul of man is the unseen, "I Am" that operates itself and the two bodies, physical and spiritual, the seen and the unseen, so does God, the Universal Soul, operate himself and the whole Universe, seen and unseen, known and unknown to man. By this analogy we can see how surprisingly correct St. Paul was when he wrote, "God is all and in all."

We may say, and that in a very true sense, that Man is a Universe, "Microcosm," in himself, because in Man we find parts of all that which exists in the greater Universe, "Cosmos," as far as known to man. As man is the highest part of that creation it follows, logically, that just in proportion as Man learns to know himself he learns to know God. A man's conception of God is, therefore, in effect nothing but the highest conception of himself.

In order to prevent confusion in connection with the above, it may be well to refer to "God, the Father in Heaven" spoken of by Jesus. In my opinion, Jesus did not refer to the Universal Soul, but to the highest developed individual soul on the spiritual plane of this planet. To give reasons for this here is out of place. It may be said, however, that Heaven and hell, as used in religious teaching, refers to conditions and localities of human souls after physical death, and as it has been demonstrated that human souls called spirits, do not leave this planet after death, and because science has demonstrated that the spiritual side of nature is a fact, we have all the necessary evidence to enable us to form the conviction that Jesus referred to "The Spiritual Ruler of This Planet" when he used the terms "God the Father in Heaven." Furthermore, this thought corresponds to all we know of life and Nature. It fits in as a necessary part in "The Harmonic of Evolution" in all departments and kingdoms of Nature.

CUTS THE ROAD UP

Editor Dispatch:

Am sorry that it is again necessary to appeal to the honor of Brainerd autoists in this Gull lake road matter. You fellows were opposed to improving our short road and got the state road constructed around your way, where it is now of no earthly use to farm traffic, and just because we have at our own personal expense improved our short-cut till it is now admittedly a better as well as a much shorter road than yours, does not justify you, under the circumstances, in now coming on and plowing up our road that was not expected to stand up under heavy auto traffic.

Please consider this matter from our standpoint and you will to some extent at least recognize the principle laid down by the Golden Rule.
C. A. KRECH

ENTIRE ITALIAN CABINET RESIGNS

Ministry Refused Vote of Confidence, All Members Tender Their Resignations.

ARE FORMING NEW BODY

Lack of Proper Distribution of Fuel and Food Held as Real Reason For Withholding Confidence Vote.

Washington, Oct. 27.—As a result of failure to obtain a vote of confidence from the strongly Socialist House of Deputies, the Italian cabinet has resigned in a body.

The question of the vote was of the foreign and war policy of the government, but the real reason for the ministry's fall is to be found, it is declared, in the failure of certain departments properly and fairly to distribute proportionately the falling supply of coal and food so as to cause as little suffering as possible. Internal affairs rather than external caused the overthrow, first word of which was made public here a day or two ago. A coalition cabinet in which Baron Sonnino will remain as minister of foreign affairs already is being formed.

Developments Rushing.

Developments in the Italian situation which have been coming in a rush for several days culminated in this last announcement. The fall of the cabinet was not unexpected. But it was a shock, following as it did on the heels of the German drive and the virtual recognition by the United States of the situation in Italy by the transfer by the shipping board of 100,000 tons of shipping to Italian needs.

Sonnino Defends Foreign Policy. The new Italian cabinet, it is indicated unofficially, will include besides Baron Sonnino, Senator Bisolati the Socialist deputy whose opposition to the fallen government was largely responsible for its overthrow. Senator Orlando, probably in the portfolio of minister of the interior, and Senator Hitti, known in this country through his connection with the Italian war mission as the new food dictator.

GIVES NEW COAL PRICE SCALE

Submitted to President By Fuel Administrator Garfield.

Washington, Oct. 27.—Recommendations as to a revision of coal prices at the mines to be authorized as a result of increased operating expenses under the recent wage agreements between owners and striking miners have been submitted to President Wilson by Fuel Administrator Garfield.

The recommendations were not made public pending the President's consideration.

The fuel administrator has made a careful survey of conditions at the mines in the various districts of the country, but what increased prices, if any, have been recommended to the President is not known. Wages paid miners in other fields are based on those given in the Central field of Ohio, Illinois, Indiana and Pennsylvania, and it has been generally assumed that if increases are made in that field so as to absorb war raises the prices in the other fields would be similarly changed where living conditions warranted higher salaries to miners.

TO TRY TO CARRY ELECTIONS

Sinn Feiners Plan To Capture Government That Way.

Dublin, Oct. 27.—Professor Edward de Valera, member of parliament for East Clare, who was elected president of the Sinn Fein conference, in his speech of acceptance urged Sinn Feiners to capture the county councils in the next elections in order to have the full machinery of government in Ireland in their hands. The convention agreed to carry out the plan. It was decided that the number of delegates to the national convention from clubs shall be on the ratio of one delegate for each 50 members.

Labor Rebukes Socialist Convention

Washington, Oct. 27.—The executive council of the American Federation of Labor has issued a statement saying it has declined to participate in an international conference of workmen and socialists of all countries, suggested by the executive committee of the Russian workmen and soldiers' delegate council, declaring that such a conference at this time would be untimely, inappropriate and not conducive to good results.

Champ Clark Withdraws Charges.

St. Louis, Oct. 27.—Champ Clark has withdrawn his charge that a "ring of New York men" had been hampering the sale of the bonds of the second Liberty Loan in order to force a higher rate of interest on the next issue of bonds. "When I made that statement," said the speaker, "the papers were full of stories telling of the fact that the sale of Liberty bonds was lagging all over the country. However, in view of what New York has done in the sale in the last three days, I withdraw my criticism."

HAIG SMASHES AHEAD

French and British Resume Drives In West.

Germans Not Given Time To Recover From Blow By Petain—French Take Village and Farms.

London, Oct. 26.—Still smarting from the heavy blow General Petain had administered to them on the Alsne front, leaving him uninterrupted in organizing the captured ground, the Germans were called on to face a resumption of the Allied offensive in Flanders.

Both Field Marshal Haig and the Paris war office report the launching of the new attack, which is declared to be developing satisfactorily, although under most adverse weather conditions.

The French were obliged to wade through water up to their necks, but nevertheless they captured Draebank village, Papoged wood and many farms where the Germans had organized points of support.

Front May Be 10 Miles Long.

Hundreds of Germans were captured.

The front of the thrust apparently is a far more extended one than that of last week, as the London official statement mentions the attack as being launched "northeast and east" of Ypres. If the British have carried the field of attack to a point as far south as directly east of Ypres, the battle front of the day is on a line approximately 19 miles long, extending along the entire curve of the new Ypres salient.

CANADA WAR PLANT IN RUINS

Fire Started By Blasts in Shell Filling Building.

Montreal, Oct. 27.—Tremendous explosions destroyed part of the plant of the Canada Explosives company at Vaudreuil. A special train carrying fire fighting apparatus has been sent from Montreal. Early reports indicated there had been no loss of life.

The detonations continued for an hour. The sky was lit up as though by rainbows with the flames of burning acids. The explosions are believed to have started from fire discovered in a shell filling building. A heavy wind blew the flames straight across the plant.

Castro Forced Out of Trinidad.

Port of Spain, Trinidad, Oct. 27.—Cipriano Castro, former president of Venezuela, has been requested by the government to leave Trinidad. The general protested, but is preparing to depart. He attributed his expulsion to American intervention.

DAILY MARKET REPORT.

Minneapolis Grain.
Minneapolis, Oct. 27.—Oats, December, 58½; May, 57½.

Duluth Flax.
Duluth, Oct. 27.—Flaxseed, October, \$3.22; Nov., \$3.15; Dec., \$3.10.

Chicago Grain.
Chicago, Oct. 27.—Corn, December, \$1.19; May, \$1.13½; Oats, Dec., 58½; May, 60½.

South St. Paul Live Stock.
South St. Paul, Oct. 26.—Estimated receipts at the Union Stockyards today: Cattle, 2,000; calves, 500; hogs, 5,700; sheep, 2,500; cars, 185.

Railroads entering the yards reported receipts for the day by loads as follows: Burlington, 5; Milwaukee, 55; Rock Island, 3; Omaha, 23; Great Northern, 3; St. Louis, 26; Northern Pacific, 44; Soo Line, 21.
Steers, \$6.50@10.00; Cows, \$5.65@8.00; calves, \$5.50@12.50; hogs, \$14.65@14.90; sheep and lambs, \$8.00@16.00.

Chicago Live Stock.

Chicago, Oct. 26.—Good grades of hogs were in demand, but other kinds proved slow. Cattle arrivals exceeded the number expected. Sheep did not seem overplentiful. Hogs—Receipts, 15,000; steady; bulk, \$14.85@16.40; light, \$11.25@16.45; mixed \$14.65@16.65; heavy, \$14.60@16.65; rough, \$14.60@14.85; pigs, 10.25@14.00. Cattle—Receipts 8,000; weak; native steers, \$6.85@17; western steers, \$6.25@13.75; stockers and feeders, \$6.00@11.50; cows and heifers, \$5.00@12.15; calves, \$8.00@15.25; Sheep—Receipts, 6,000; steady; wethers, \$8.75@12.75; lambs, \$12.25@17.75. BUTTER—Creamery, extras, per lb., 12c; extra firsts, 41c; firsts, 40c; seconds, 35c; dairy, 36c; packing stock, 35c.

EGGS—Fresh prime firsts, new cases, free from rots, small dirties and checks out, per dozen 38½; current receipts, rots out, \$10.65; cold storage parlots, per case, \$10.60; checks and seconds, dozen, 29c; dirties, candled, dozen, 29c. Quotations on eggs include cases.

LIVE POULTRY—Turkeys, fat, 10 lbs. and over, 20c; thin, small, unsalable, cripples and culs, unsalable; roosters, 12c; hens, 4 lbs. and over, 17c; 2 to 3 lbs, 15c; hens and culs, 10@12c; ducks, 13c; spring, 16c; geese, 1b, 10c.

FUEL CHIEFS SEE GARFIELD

Administrators from 15 States Discuss Coal Problems.

Washington, Oct. 27.—Federal fuel administrators for about 15 states have held a conference here with Fuel Administrator H. A. Garfield at which a variety of coal problems affecting their sections were considered.

A. S. Learoyd, New York City, former Lackawanna general freight agent, was named anthracite representative at the federal fuel administration.

EXCEED PRICES FIXED

Coal Men Charged With Violation of Law.

Accused of Charging More For Fuel Than Law Allows—Railroad Company Indicted.

Washington, Oct. 26.—That retail and wholesale dealers are violating the law in charging more for coal, both bituminous and anthracite, than figures set by the fuel administration, are charges that have been received by the Department of Justice from persons in various sections.

Investigation of this has been ordered with a view to instituting criminal prosecutions should the charges be sustained.

The great bulk of complaints, many hundred in number, have been addressed to the fuel administration. It is understood that the fuel administration is contemplating an investigation of all complaints and the institution of prosecutions where they are justified.

Indications are that the fuel administration will turn over, probably within a few days, the complaints to the Department of Justice and that the department will order a general investigation into the entire coal situation with respect both to retail and wholesale prices.

Railroad Is Indicted.

New York, Oct. 27.—Indictments against the Lehigh Valley Railroad company, charging conspiracy to violate the Elkins Interstate commerce law, prohibiting freight rate concessions and discriminations, have been found by the federal grand jury.

AMERICAN HELD FOR RANSOM

Is Captured By Mexican Bandits, Report Says.

Jaurez, Mex., Oct. 27.—An American named Carlin, son of Patrick Carlin, owner of La Patria mine, 90 miles south of the border, is being held for ransom by Epifanio Holguen and his bandits, Americans arriving here from Villa Ahumada report.

According to these Americans, Carlin was duck hunting near his father's mine when the bandits seized him. The Holguen bandits also raided the Erupcion mines, owned by Americans, 50 miles from Villa Ahumada, carrying off everything portable and demanding clothing, shoes and hats for the entire band.

Forty federal soldiers were ordered from Villa Ahumada to pursue the bandits.

TABERNACLE LAST MEETING

Sunday Marks the Close of the Revival Campaign. Coffee to be Served in Afternoon

TESTIMONIALS LAST NIGHT

Dr. Bromley Last Night Pointed the Way to Salvation in a Thoughtful Sermon

BROMLEY TABERNACLE ANNOUNCEMENTS

SATURDAY
 7:30 P. M.—Service at tabernacle.

SUNDAY
 9:30 A. M.—Sunday schools meet in their respective churches.
 10:45 A. M.—Preaching at tabernacle.
 2:30 P. M.—Meeting for men and women both at tabernacle.
 7:00 P. M.—The closing meeting of the campaign.

Coffee will be served in the tabernacle Sunday to those who would like to bring their lunches and remain for the different services. People from the country can find a warm and comfortable place and be welcome.

The meeting in the afternoon is for men and women and all are invited. The afternoon services heretofore have been for men only and women only but this final service is for all. There will be special music and a profitable time will be enjoyed.

Last night an opportunity was given for short testimonials from the "twelve happiest persons in the house." The response was instantaneous and instead of twelve, twenty or more responded in a few words. Mrs. Nels Johnson sang a solo, "Arise Ye." Her splendid voice filled the great building and brought its spirit of worship.

The solemn theme of "The Unpardonable Sin" at the tabernacle last night was the basis of perhaps the most heart-searching discourse of the entire series of evangelistic sermons. Dr. Bromley took special precautions to secure an absolute quiet that would prevent any hearer from losing its deep import at any point.

The words "There is a sin unto death," made up the text, as found in the last chapter of John's first epistle, the sixteenth verse.

God is working with men to put a step to sin. Christ came into the world on account of sin. It was sin that made necessary His sacrifice in the world. And that the gospel might be effectual to this end it must contain wonderful things.

The Gospel is "Good tidings." That is what the word means. It reveals to men mercy and goodness, hoping that these shall lead to repentance. It came after a long dispensation of law, and stands in remarkable contrast to it. The Gospel means mercy, the law, justice. There could be no law without justice, and no justice without law. God is merciful. He is also just.

There is an end of mercy, and that end is the beginning of justice. There comes a time when mercy can act no longer.

Justice and mercy are necessary complements one of the other. Law means justice, and justice means re-

SUGARMAN KNOWN ON THE RANGE

Abe L. Sugarman, St. Paul, secretary of the socialist party, who was found guilty of making treasonable utterances and sentenced to three years in prison, is known on the Cuyuna range where he attempted to make a speech at Deerwood August 31.

Billed to speak under the name of "Brooms," who is now serving ninety days in the Minneapolis workhouse, Sugarman first denied his identity to Sheriff Claus A. Theorin.

He told the sheriff he wanted to speak on the views of the socialists against the war and the sheriff told him no anti-war talk would be allowed in Crow Wing county. Sugarman shut up and left on the next train, an angry crowd having gathered about him at the depot. Sugarman at that time was under bonds to answer the charge he has now been convicted on.

tribution. If heaven is taught in the Bible then hell is taught. If there is no hell then there is no heaven. And if there is no heaven there is no God. This reasoning summarized, shows that if there is no hell there is no God, and in truth the first step in the modern defections from the doctrine of the true personality of God as Creator and Judge has been the denial of retribution. How subtle the scheme!

If there is indeed any salvation, it is a salvation from sin. No law is worth while without a penalty. No imaginary penalty will do. Men who do not believe in retribution either are shallow in their conceptions or have a twist in their mental makeup. Better to believe Christ, who said that there is a hell, than all the philosophers and skeptics of human kind. It may not be merely of fire and physical torment, nor is heaven only a place of physical comfort. Hell is a place of spiritual and moral torment as heaven is a place of spiritual and moral comfort and positive joy. Hell's torments in the individual soul will in part at least consist of the workings of memory which will bring only remorse.

The wages of sin is death. The whole trend of sin is deathward. Death is degrading and leads to the graveyard. It is making tracks six feet long and two feet wide all over the land. Not that death is always the result of some immediate transgression. By no means. Yet it often is just that, and many an untimely death could have been prevented if the individual had obeyed the voice which called to repentance and faith in Christ unto salvation. At this point effective illustration was given from authenticated instances. The speaker believed he was talking to empty benches which ought to have been filled by persons who will in many instances find their lives shortened by their unwillingness to heed the many warnings of this campaign.

As the workers must give account to God, so it is supposed that all shall be disillusioned about the awful fact of retribution, at whatever cost to the popularity of the evangelists or their movement. This sentiment met the deep spiritual sympathy of the congregation, which on this occasion represented the city's most devoted followers of Christ. Men must know that empty profession will not do in that great day, and that they must be regenerated by the actual power

WIFE DISCOVERS BODY OF FARRAR

Gas Death Cause, Efforts at Resuscitation Friday of Former Brainerd Man Failed

A. C. FARRAR FORMER ENGINEER

Was Injured in Railway Accident Some Years Ago Which May Have Affected Mentality

A. C. Farrar, who was asphyxiated in Duluth Friday formerly lived in Brainerd. He was a cousin of F. A. Farrar. Three or four years ago he was injured in a railway accident which is believed to have affected his mentality. His father, A. Y. Farrar, was one of a company which platted Farrar & Forsyth's addition to Brainerd.

The Duluth News Tribune refers as follows to the death of Mr. Farrar:

A. C. Farrar, age 54, an engineer on the Northern Pacific railroad, was found dead Friday afternoon at his home, 519 North Twenty-first avenue West. Death was due to asphyxiation. The conditions under which the body was found lead the police to believe that his death was a case of suicide. Mrs. Farrar, who is his only survivor, was prostrated and was unable to assign a motive. She is under the care of a physician.

Mrs. Farrar had been absent from home during the afternoon. She returned at 5:30 P. M. and became alarmed when she found all the windows and doors locked. She summoned J. H. Evans, a neighbor, who broke a rear window and forced an entrance. Mr. Farrar's body was found in the kitchen. The room was filled with gas which was issuing from open burners of the stove.

Doctors were summoned and a call sent to police headquarters for the pulmotor. Dr. L. T. Pare arrived first and took the body outside where a vain attempt was made at resuscitation. Sergeant Olson, of the police department, was unable to bring any signs of life with the pulmotor. Coroner McComb was notified and began an investigation last night.

Farrar had been a resident of Duluth for many years. He formerly lived on Nineteenth avenue West but lately moved to the present residence. There are no children. According to his friends, Mr. Farrar had been in good health and had shown no signs of depression. No motive was ascribed for the act.

The body was removed to Olson & Hopenyan's undertaking rooms. Funeral arrangements will be made later.

ESTABLISH SIXTH BRANCH

The Tanner Milling Co. has established its sixth branch house, being located at Walker and in charge of N. H. Erickson, formerly in the grocery business there. Flour, feed and their various other mill products will be handled.

ROLL OF HONOR

Capt. Harold Cooke, former Brainerd man, now enlisted with the Canadian expeditionary force, is in the city visiting friends.

Mrs. L. A. Slow and daughter Miss Daphne Slow of Aitkin, were guests of Mrs. Eugene Morey of Brainerd. Corporal Slow, her son, is now at Leavenworth, Kansas, and bought two Liberty bonds.

FORMER OWNER EMPRESS DEAD

W. S. Wolfe died in Lewiston, Montana, leaving wife and sister.

W. S. Wolfe, at one time owner of the Empress theatre in Brainerd, died October 26 in Lewiston, Montana. He is survived by his wife and a sister who lives in Minneapolis.

STREET CLEANING

Chief John D. Gile and Force of One Man Make Dirt Fly in Brainerd

Street cleaning has languished in Brainerd until Chief John D. Gile, head of the police force, commanded the only prisoner in jail and set him to work cleaning crossings and manholes and the result was noticeable. The man drew 15 days and so the good work will continue some time longer with the impromptu force.

KNIGHTS OF COLUMBUS

Tuesday, Nov. 6, to be a Big Night. Attractions That are Offered

Tuesday, November 6, is to be a big night in Knights of Columbus annals. There will be installation of officers, final arrangements for indoor baseball and tennis tournaments, and refreshments and smokes will be served. B. C. McNamara, lecturer of the council, has notified the members of the good things in store for them next Tuesday.

NO SLACKERS IN THE COUNTY

Search made on the Cuyuna Iron range and other points has convinced F. A. Kearney of the Department of Justice, that Crow Wing county is singularly free from slackers and he complimented Sheriff Claus A. Theorin and other authorities on the good showing made.

WHERE TO WORSHIP

German Evangelical Church
 No morning service. The pastor will not be in the city. Sunday school at 9:30. Bible story lesson. Mark 7:31-37. A. Drieling, superintendent.

† † †
Barrows Methodist Church
 Sunday afternoon at 3 o'clock there will be a preaching service conducted by the pastor, Rev. F. W. Hill. Sermon subject, "The Comforter." A cordial invitation is extended to everyone in the community to attend.

† † †
Peoples Congregational Church
 Rev. William Lloyd Crist, pastor. Sabbath school, 10 A. M. lesson, "Ezra's Return From Babylon." Ezra 8:21-32. Morning service 11 A. M. subject, "Are You a Hobab?" Evening service 7:30 o'clock, subject, "Good and Bad Promises." You and your friends are welcome to worship with us.

† † †
Norwegian-Danish Lutheran Church
 Norwegian sermon with communion at 10:30 A. M. Sunday school at 9:15 A. M. Confirmation class Saturday at 10 A. M. Sunday evening the last series of lectures on Luther and the Reformation will be held in the Swedish Lutheran church at 7:30 P. M. All loyal Lutherans should attend this last meeting. Rev. A. Sorenson.

† † †
First Congregation
 On Sunday at 10:30 o'clock Rev. J. P. Sheridan will preach in the First Congregational church and will take for his theme "God's Relation to Our Life." Special music will be rendered by the choir.

At 11:45 the Bible school will hold its regular session. Meetings in the tabernacle at 2:30 and 7:30. We invite you to worship with us.

† † †
Swedish Baptist Church
 Morning service at 10:45 when Rev. P. Alfred Peterson from Lake City will preach in the Swedish language. Sunday school meets at 9:45 a. m. when Miss Cain of the Bromley party will speak to the Sunday school. No evening service in the church. We all join in the tabernacle in the afternoon and evening. All are welcome to all services.

† † †
Swedish Bethany Church
 The Sunday school will meet at 9:45 o'clock Sunday morning. The attendance is steadily increasing and there are classes for all ages. The Sunday school will dismiss in time to attend the morning services at the tabernacle. Especial attention is called to the afternoon meeting at the tabernacle, to which all converts are given a special invitation. Rev. Theo. Clemens, pastor.

Methodist Church Notes

Bible school at 9:45 A. M. Union evangelistic service at 11 o'clock in the tabernacle. Union Young People's meeting at 6:15 P. M. in the Bethlehem Lutheran church. Union service at the tabernacle at 7:30 P. M. It is expected that this will be the last of the series in the evangelistic campaign and the pastor urgently requests all members and friends of the church to attend. Immediately following the conclusion of the tabernacle services, the pastor, Rev. F. W. Hill, will conduct a course in Christian doctrine for young people of the church one evening a week and one afternoon, a catechism class for the younger ones of the Sabbath school. Parents and friends are requested to keep this in mind and be ready to co-operate.

† † †
St. Paul's Episcopal Church
 21st Sunday after Trinity. 8:30 A. M. holy communion. 10:30 morning prayer and sermon. Subject, "The Consecration of War." "Not by might nor by power, but by my spirit, saith the Lord." In recognition of this truth a solemn call for national prayer has been issued. Dare we pray for victory for Allied arms? Is our cause righteous? What are we fighting for? If we believe our cause is just it is a solemn duty and responsibility to obey the president's call, to neglect it will be disloyalty. 4:30 P. M. evening prayer and sermon, subject, "The Menace of Pacifism." There is a cry for a peace which in itself would be ten thousand times worse than war. Military danger. 11:30 Sunday school. All are welcome to the service.

Minnesota Puts Iron Into Our Nation

FOR our nation, when it needs iron for its steel rails, bridges, buildings, steel ships and battleships, cannon shot and shell, comes to your State of Minnesota.

When our nation needs anything in rubber, it comes to Goodrich, the world's largest individual rubber maker.

It comes especially to Goodrich, when it needs automobile tires.

GOODRICH BLACK SAFETY TREADS

Are the tires delivered to you out of the nation-wide testing of Goodrich Test Car Fleets.

They give you the Tested, proven BEST in Tires; Goodrich's Black Tread rubber; Goodrich's Close-Clutch, Cross-Barred pattern—a real non-skid; and Goodrich's Unit-Mold, Unbroken-Cure tire body.

You buy tried merit in "America's Tested Tires."

THE B. F. GOODRICH COMPANY
 THE CITY OF GOODRICH, AKRON, OHIO
 Makers also of the Famous Silvertown Cord Tires.

"Best in the Long Run"

and times worse than war. Military peace, peace at any price. We need to realize "The Perils of Peace." If that peace is simply peace as an end in itself. There are efforts today to defeat the purpose of the nation, to paralyze its energies. A serious

danger. 11:30 Sunday school. All are welcome to the service.

More Appropriate.

Bodily Housekeeping

(BY V. M. PIERCE, M. D.)

The subject of drinking water with meals has been misunderstood for a hundred years.

In recent years investigation by means of X-rays, the observations of scientists such as Cannon, Grutzner, Pavlov, Fowler, Hawk, prove that an abundance of water taken during digestion is necessary for a good bodily housekeeping. Drink plenty of water with each meal. Do not drink ice-water at any time.

If your kidneys are sick, or you suffer with lumbago or rheumatism at times, pain in the back or back of the neck, take a little Anuric before meals. This can be found at any good drug store. Therefore my advice to young or old is, always drink plenty of pure water. And for long life, occasionally take tablets of Anuric three or four times a day.

It is simply wonderful how quickly Anuric acts—much more potent than lithia. You will find it dissolves uric acid as water does sugar.

SUFFERED SEVERE PAINS.

Mankato, Minn.—“About four years ago I became all run-down and weak thru hard work. I could not eat, was bilious all the time, suffered severe pains in the back, in fact was distressed all over. I had several good doctors but did not get any relief. I went on suffering this way for about two years when my sister advised me to try Dr. Pierce's Favorite Prescription, which I did, and three bottles completely cured me. I have never been bothered since. There is nothing better for women who are run-down or suffering with weakness of any sort.”—Miss GERTRUDE E. EVANS, 325 Belgrade Ave.

DONT LIKE REPRISALS

Berlin Calls Allies' Air Attacks "Brutal Bombing."

Teuton Selfpity Manifests Itself Following Visits of Allied Aircraft to German Cities.

Berlin, Oct. 26.—According to letters expressed in highest quarters here, if the Allies, and England in particular, hope by brutality in bombarding unfortified German cities to bring Germany to her knees, that hope is vain.

It was stated that the Entente should not forget that there are numerous French cities in easy reach of German bombing air fleets, if the Allies, including America, carry out any program of attack on German towns.

Allied Air Fleets Incapable.

This same authoritative source declared:

“The British press tries to comfort the British population with assurances that at the beginning of the winter campaign of the Flanders battle, English air fleets, aided by numerous new English, American and Italian planes, will bombard fortified and unfortified German cities.

“Our enemies hope the lack of raw material will force us to our knees. That hope is fruitless. We have solved the problem of substitutes so well that the English are considering whether they should not imitate some of these substitutes.

London Raids Justified.

“Our raids on London are justified. Lloyd George, in June, 1915, declared that London had become ‘a second Woodville.’

“Hitherto, whereas our enemies have incessantly bombarded open towns such as Karlsruhe, Frankfurt on the Main, Baden, Freiburg and Tübingen, the effect of such brutality on the population has been the opposite of that intended. It has strengthened the public's determination to hold on.”

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

“Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

ARE FORCED TO YIELD PLATEAU

Italians Withdraw Lines To the Border In One Sector, Under Teuton Pressure.

30,000 ARE CAPTURED

Latin Troops and 300 Guns Taken, German War Office Announces—Russians Unable to Keep Pace With Fleeing Teutons.

Rome, Oct. 27.—The war office announces that under the Austro-German pressure on the Isonzo front the Italians have withdrawn their lines to the border in one sector and are preparing for the evacuation of the Bainsizza Plateau. The statement reads:

“The hostile offensive against our left wing on the Julian front continued Wednesday night and Thursday. Conducted by powerful forces.

“From Monte Maggiore to the west of Azzua we have withdrawn on our boundary line. In consequence of which we had to provide for the evacuation of the Bainsizza Plateau.

“East of Gorizia and on the Carso the situation is unchanged.

“Ten enemy airplanes were brought down or forced to land by our aviators.”

Claim 30,000 Latins Taken.

Berlin, Oct. 27.—The Austro-Germans in their offensive on the Isonzo front have captured more than 30,000 Italians. More than 300 guns also were taken.

At many places the Germans are now fighting on Italian territory, the announcement says.

The statement says the northern wing of the second Italian army has been defeated and is retreating. German divisions are advancing beyond Karfreit and Ronziana.

Retreat Too Fast for Slavs.

Petrograd, Oct. 27.—The Russian troops on the northern end of the front, following the Germans in their withdrawal in that sector have advanced as far as the Riga-Orel railway without discovering the enemy, the war office reports.

Russian forces on the Varder coast of Estonia repulsed a German detachment, the Russian war office announced. Part of the German naval squadron, including some dreadnoughts, the statement adds, is anchored in Kuivabai bay, on the eastern side of Moon Island, in the gulf of Riga.

WILL REACH 5 BILLION GOAL

Second Liberty Loan Believed To Be Thorough Success.

Washington, Oct. 27.—America, aroused, will give her second reply to Germany's taunt that she cannot raise and maintain an army. It will be in the form of a golden barrage fire of \$5,000,000,000 thrown into the breach at the last moment of the second Liberty Loan—unless all present indications fail.

Friday night the total subscribed was conservatively estimated by the loan officials at \$3,635,000,000—the official return up to the close of business shows \$2,286,836,000—which, of course, does not include many millions that did not get to the banks in time to be counted.

Officials not only of the Liberty Loan, but of the various branches of the government, were enthusiastic in their confidence that the maximum of the loan would be subscribed by the end of the campaign.

NEEDS TWO YEARS' TRAINING

Writer Says U. S. Troops Can Be In Field Sooner.

St. Louis, Mo., Oct. 27.—Hamilton Pyfe, war correspondent for the Northlife newspapers, a member of Lord Northcliffe's party, speaking here, declared that from what he had seen at the front the American army would do well if it were ready to take the field after two years' training.

“I have been called a pessimist for expressing this opinion,” he said, “but I believe it is much better to try to see things as they are than to indulge in false hopes. The German nation prepared for 50 years to win this war and they have not won it yet. How can anyone expect that an army can prepare in a year or 15 months and expect to win it?”

To Relieve Coal Car Shortage.

Washington, Oct. 26.—A nationwide priority order that open top freight cars should not be used for any shipment except coal, coke or ore was issued today by Priority Director R. S. Lovett. The order is expected greatly to relieve coal car shortage and distribution difficulties.

Accused Army Officer On Stand.

New Brunswick, N. J., Oct. 27.—Dr. William J. Condon, a captain in the army medical reserve, took the stand in his own defense in his trial on a charge of murdering John V. Piper, a Rutgers College student. The defendant told how Piper responded to an advertisement he placed in a newspaper when in need of someone to care for his house last winter. Dr. Condon then began a description of his movements on the February night when it is alleged by the prosecution that Piper was shot and killed.

TABERNACLE LAST MEETING

(Continued from page 5)

of the Spirit of God through the gospel.

There is the death of spiritual power. There is the death of earthly opportunity for salvation. There is a religious suicide which men may and do commit. There is a last chance, beyond which there is no more possibility of salvation, nor even the desire for salvation. There is a dead line which can be crossed, a point in the terrible Niagara of sin, while yet above the cataract, where the current gains a momentum beyond the power of man to overcome. Physical death may prevail against one who is saved. A man may backslide from Christ and be restored. But when the heart dies—when the Holy Spirit has been sinned against, resisted and grieved till He will no more create in the soul a desire toward Christ, there remains not a vestige of hope.

Illustrations from scripture and experience were cited where people have been abandoned to absolute insensibility and hardness of heart. In scripture are instances of persons commanded not to pray for certain ones, as God declared He would not hear. And many are the proofs of this very thing in the experience of Christian workers.

The speaker denied with emphasis that God has pleasure in adverse judgment. He has said, “As I live, I have no pleasure in the death of the sinner.” At the judgment God will be compelled to say with sorrow, “You have had every opportunity. You have known and understood. You should have listened, believed, cast away neglect and presumption and received Christ. And with these solemn words the soul will be rejected forever, as God says again, “It must be done.” God must protect the Heavenly home of His own, as we protect our earthly homes from those with whom we cannot have fellowship. Heaven must be made safe for throne and kingdom and redeemed people.

Many say, we receive our just deserts, our full punishment in this life. Pleasant doctrine indeed, and easy way out of it. But such know nothing about the reality and seriousness of sin from God's point of view.

The gospel is a savor of life unto life, to some. It is likewise unto death to others. In the solemn service of last night applause seemed to find no place, except in one instance where the speaker declared that while a drop of blood remained in his body he must remain loyal to the Old Book which is a savor of life unto eternal life to a few, but the savor of death unto eternal death unto the many, because they willingly have it

so and seal it by their own decision.

The climactic thought of the great discourse was that men are not to be condemned because of their sins. That is, those who do not know of the gospel. But they are to be condemned because they are offered a way to be rid of sin and will not have it. This seals their choice and proves that they really love their sins and propose to cling to them at any cost.

It seems that it would be difficult to put the great religious issue more squarely “up to the hearer” than was done in this solemn and full presentation of a momentous and oft-neglected fact. In truth it seemed that just as the gospel itself compels men to a decision of an awful issue, and its hearing either saves or damns according to the hearer's attitude, so this sermon must have been the rock on which souls either set their feet for a right decision or that on which they fell to be crushed forever. The season of personal effort to bring decisions following the message, was one of exceptional seriousness, with some response.

PREMIER BEATEN ON VOTE

First Defeat Comes to Lloyd George In House.

London, Oct. 25.—Premier Lloyd George's government has suffered its first defeat in the House of Commons. In the government bill to promote the production of petroleum in the United Kingdom, provision was made for a payment of a royalty of 9 pence a ton. An amendment striking this provision out was carried 44 to 35. The defeat of the government is regarded as purely mechanical and will not affect the government's tenure of office.

I build cement foundations, do mason work, bricklaying, cement block work and plastering.

Always Have PERUNA

Mrs. L. A. Patterson, 1399 Kentucky St., Memphis, Tennessee, writes:

“I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us.”

For Coughs and Colds in the Home. Recommend it to Our Neighbors.

Those who object to liquid medicines can procure Peruna Tablets.

Bevo

—the home drink

Besides its popularity at drug stores, fountains and restaurants, Bevo has found a welcome place in the home. A family beverage—a guest offering—a table drink that goes perfectly with all food.

As a suggestion for Sunday supper—Sweet red or green peppers stuffed with cream cheese and chopped nuts or olives, served on lettuce leaves. French dressing. Cold meat. Toasted crackers. Bevo for everyone. A beverage that tastes like no other soft drink. Pure, wholesome and nutritious.

Bevo—the all-year-round soft drink.
